Welcome to Montana
Americana knife products!

We do our best to provide
quality, handmade,
serviceable knives and
sheaths at fare prices.

I start with new certified
tried and true 1095 hi-
carbon spring steel. After
my blanks are water-jet cut
to reduce heat; I grind,
taper, file and shape them
before I harden and fire
etch them in a coal forge.
They are then tempered to
Rockwell 57. I then zone
temper drawing the spine
down to a Rockwell 54 to
give some flex and
toughness.

I use maple handles with
brass pins and sharpen
them with a very fine edge.
They hold an edge well
and sharpen easy.

I use 1/32" steel for my
flexible filet blades, 1/16"

for most mini blades and
3/32" for the medium and
large knife blades. For the
big knives I use 1/8" and
1/4" for the Hudson Bay
Camp knives and the 8"
Bowie.

You will find my knives in
the re-enactors belt, the
hunters pack or in the
kitchen at home. Knives
include a pouch style
sheath made of vegetable
tanned leather treated with
natural oils.

Feel free to call if you have
questions.

Knives under \$100.00

Mini Roach Belly	\$40.00
Mini English	\$40.00
